

Trim Tan, Australian made and owned, revolutionises sunless tanning, by visibly toning + smoothing the skin as it tans.

Trim Tan contains organic and natural ingredients.

Using clinically proven actives, Trim Tan Spray, combined with Trim Tan Lotion visibly corrects and:

- instantly reduces the appearance of cellulite
- instantly revitalises the appearance of skin elasticity
- instantly revitalises skin suppleness

Use Trim Tan Spray and Trim Tan lotion to appear visibly slimmer, toned and re-sculptured.

Trim Tan

A revolution
in sunless
tanning

How does Trim Tan work?

Trim Tan visibly lifts, firms and tones facial and body contours. The key tanning ingredient that promotes a long-lasting golden glow is DHA. Naturally derived from sugar cane, DHA veils the skin's outer most layer, where it binds with specific amino acids to develop a rich, natural hue. DHA is completely safe and is not absorbed beyond the skin's surface.

How do I achieve natural looking colour?

Trim Tan, with three interchangeable tanning spectrum's, is designed to identically match naturally tanned skin tones. Trim Tan delivers a seamless streak free and natural finish.

How long does it take for a Trim Tan professional salon spray to develop?

Trim Tan begins to develop in as little as 90 minutes. Full results are achieved in just 2-4 hours. For darker results leave on for 4 hours before showering.

Trim Tan spray treatments are only available at professional beauty salons and tanning centres. Trim Tan professionals are expertly trained to ensure perfect application and results every time.

How long will my Trim Tan salon spray tan last?

Trim Tan's unique network will provide 5-7 days of high definition tanned perfection. Results may be prolonged with the daily application of Trim Tan lotion. It is important to exfoliate the skin, to remove dead skin cells. Failure to exfoliate before a Trim Tan application may result in a patchy and uneven finish.

expert results
every time

USE DAILY FOR BEST FIRING RESULTS

- visibly firms and tones the skin by up to 12% within 28 days
- clinically proven results in 90% of participants
- noticeably reduces the appearance of cellulite

Does Trim Tan help protect your skin from the sun?

Trim Tan does not offer any SUN/UV protection. A primary broad spectrum sunscreen should be applied daily and regularly re-applied to protect against sun damage.

Will Trim Tan have the same result on all skin types?

Depending on the type and condition of your skin, colour results may vary.

Is Trim Tan safe?

Trim Tan has been expertly formulated by a leading cosmetic chemist. All products are rigorously tested and assessed for efficacy and safety. Trim Tan is non-comedogenic, non-acnegenic and hypo-allergenic. All Trim Tan products are safe to use during pregnancy.
